Dear Jason

It is now some 16 months since you completed the bedroom extension for my daughter. Working with you on the project was enjoyable, and we were delighted with the standard of workmanship throughout.

My daughter awarded you the contract on my recommendation, as I knew from previous experience, that you would provide an excellent and quality service. She was completely trustworthy of you to have access to her home when she was at work, and that you took great care to minimise any disruption.

I would have no hesitation in recommending you to undertake any building work.

With kind regards

Vivian Curnow
